*Welcome To A New Year Of Learning*

# Message from Your Board of Education President and Interim Superintendent

Dear Wyandanch Families,

As the summer ends, we want to welcome you back to the start of the 2023-2024 school year, which promises to be academically challenging and exciting for our scholars. This school year, there will be many opportunities for our scholars, families and community members to join together in activities, sporting events and performances that will showcase our scholars' talents and achievements.

The Board of Education and interim superintendent of schools have been collaborating with the district's administrators to ensure that all scholars have access to the academic tools, social-emotional services, and extracurricular sports and activities to prepare our scholars for a bright future. We will continue to work together and are confident we can raise the level of achievement to prepare all scholars to be thinkers, doers and leaders now and into the future.

It is through our strong partnership with the community that we will build upon the opportunities we provide our scholars to achieve success. Let us continue to work together so that our scholars have a successful and memorable 2023-2024 school year.

Please refer to our district calendar as an informative guide regarding events and more. Updates to the calendar can be found on the district's website, [www.wyandanch.k12.ny.us](http://www.wyandanch.k12.ny.us). ## NOTICE OF NONDISCRIMINATION

A school's Title IX obligations to ensure nondiscrimination on the basis of sex requires schools to provide transgender students will equal educational programs and activities even in circumstances in which other students, parents or community members raise objections or concerns. Discrimination against transgender students based on their transgender status is a form of sex discrimination for purposes of Title IX.

The Guidance states that such obligations include but are not limited to: (1) providing a safe and nondiscriminatory environment for all students, including transgender; (2) using pronouns and names consistent with a transgender student's gender identity irrespective of whether the student's records have been changed accordingly; (3) allowing transgender students to access sex-segregated facilities (including bathrooms and locker rooms) and participate in sex-segregated activities consistent with their gender identity; (4) protecting students' privacy related to their transgender status, including their birth name and sex assigned at birth and prevent the nonconsensual disclosure of same. The Guidance provides that schools may "make individual-user options available to all students who voluntarily seek additional privacy." However, the Guidance advises that schools may not force transgender students to use individual-user options when other students are not required to do so.

# 2023–24 SCHOOL YEAR ELEMENTARY- AND INTERMEDIATE-LEVEL TESTING SCHEDULE

In the June 2022 statewide implementation of Computer-Based Testing memorandum, the New York State Education Department set forth details regarding plans to fully transition to computer-based testing (CBT) for the grades 3–8 English Language Arts (ELA) and Mathematics Tests and the Elementary-level (grade 5) and Intermediate-level (grade 8) Science Tests. In Spring 2024, all students in grades 5 and 8 will be required to take ELA, mathematics, and science Tests via CBT. The other grade levels may also participate in CBT, but paper-based testing will still be available for these students.

One of the benefits that comes with the implementation of computer-based testing is greater flexibility with the testing schedule. For the 2023–24 school year, there will be a singular multiple-week window to administer the grades 3–8 ELA and Mathematics Computer-based Tests and the grades 5 & 8 Science Computer-based Tests. The expanded computer-based testing window also provides greater flexibility to schools that do not wish to test during the April 8 solar eclipse and those that may close for the observance of Eid al-Fitr. Schools that are offering only paper-based tests for grades 3, 4, 6, and/or 7 and are closed on Wednesday, April 10 in recognition of Eid al-Fitr may use Monday, April 5 as an administration date for these exams.

Spring 2024 will also be the first administration of the new grade 5 and grade 8 Science Tests aligned to the NYS P-12 Science Learning Standards. Additional information on the new science tests is available on the Office of State Assessment's website.

For both paper-based and computer-based ELA and mathematics testing, schools will select two consecutive days within the respective administration windows to administer assessments for each grade level and subject. Schools must test the entire grade on the same two consecutive school days for each subject. For science, the entire grade must test on the same day. These rules are school-specific and need not be observed as district-specific.

Schools with students in a CBT grade that must test on paper per an Individualized Education Program (IEP) or Section 504 Accommodation Plan, or because they require an alternate language edition of the mathematics or science test that is not available on computer, should test on the same days as their CBT grade cohorts. The New York State Department of Education reserves the right to change the dates.
